

Simsbury High School

Flip Camera Contract

As a school community, we value being able to offer new technologies and ways of digital learning. Flip Cameras allow for students to record video footage to use for classroom assignments. These devices also present challenges for us at school given their cost/value.

For a student to borrow a Flip Camera, parents/guardians, and students must sign and return the contract below and return to a library staff member. This contract outlines our expectations for the types and acceptable use of the Flip Camera.

- Flip Cameras can be used during the school day for school assignments designated by the classroom teacher.
- Students must keep the Flip Camera dry and away from any moisture or wet environment. Students will not share the Flip Camera with others and accepts responsibility for keeping it safe.
- Students are expected to use the Flip Camera for school purposes only as these are not personal devices, but are shared school owned devices.
- Inappropriate use of an electronic device may result in disciplinary measures as appropriate and in accordance with the Board of Education student discipline policy.
- Students will be solely responsible for keeping track of their Flip Camera and Flip camera accessories. If the Flip Camera is lost or damaged beyond use the student will be responsible to cover the current replacement cost of \$149.00.

I have read and agree to the above expectations regarding Flip Camera devices. I understand that I am solely responsible for the care of this device. I understand that if a Flip Camera is not used appropriately, librarians/administrators may withdraw the privilege of borrowing it for personal use.
