With a Power Search, you can construct a simple or advanced keyword search.

A simple Keyword search lets you specify one word or phrase.

An advanced search lets you narrow your search by specifying:

- Multiple words or phrases using the Boolean operators (AND, OR, NOT).
- The type of search for each term: Keyword, Title, Author, Subject, Series or Notes.

To include Online Resources in your search, select the check box for One Search. You can then choose the data sources you want to search.
